PRICE, \$3.00 Per Month.

**"A Song of India"**  
by GALLI-CURCI

She sings the curious rising and falling strains of Rimsky-Korsakow's "The Song of the Indus" with almost uncanny accuracy.

Victor Red Seal Record 18865

**Have you heard CHALIAPIN?**

Hear him now, on his new Victor Record, in one of his most dramatic roles. In the "Ella gl'amorosa" (Her Love Was Never Mine), from "Don Carlos," his supreme art reveals the mind of a man writhing in jealous torment.

Victor Red Seal Record 18865

**PHILADELPHIA ORCHESTRA**

plays the great entracte from Moussorgsky's "Khowantchina," one of the most sumptuous and tragic of all Russian operas. Hear the great bell in the tower of Ivan Veliky.

## ECONOMY IN COAL

Fuchien Lump Coal stands for economy in coal value. All Lump Coals have a large percentage of dust which are practically waste. The dust in FUCHIEN Lump burns as well as the lump as they are cast into boilers. Fuchien Lump coal burns brightly and is therefore a decided economy.

## OPIUM LAWS.

### LEAGUE'S NEW MEASURES.

#### HONGKONG AFFECTED.

GENEVA, May 30.

The Opium Commission has adopted a resolution moved by Sir Malcolm de Levis, recommending the Council of the League to invite Powers having Eastern possessions in which the use of opium for smoking purposes is temporarily continued, to enter forthwith into negotiations, through a special conference or otherwise, with a view to examining measures to carry out in the most effective manner Part II of the Opium Convention, and thereby pave the way to reduction in the quantity of Opium used. The conference will also examine the possibility of concluding an agreement for the adoption of a uniform policy on the basis of various suggestions like suppression of the system of farms and the establishment of a monopoly, the unification of price, and the unification of penalties for infractions of the opium laws.

The French representative voted against the resolution on the ground that it infringed the Convention.

#### ACUTE AGAIN.

### BRITAIN'S RUSSIAN DEMANDS.

#### POSITION SERIOUS.

(Reuter's Service to the China Mail.)

LONDON, May 30.

The Manchester Guardian's Moscow correspondent states that Mr. Chicherin, the Soviet Foreign Affairs Commissar, declares that the Russo-British position is very serious, and if Lord Curzon, British Foreign Secretary, insists on the recall of the Soviet Ambassadors in Afghanistan and Persia a rupture is inevitable.

## DUTCH INDIES TRADE.

### BRITAIN'S EXCELLENT CHANCE.

LONDON, May 30.

Presiding at a meeting of the British Chamber of Commerce for the Dutch Indies held in London, Sir Walter Townley said that owing to the energies of the Chamber the importance of the Dutch Indies as an outlet for trade was beginning to be appreciated.

The marked rise in the price of many Dutch Indies products could not fail to encourage business and facilitate the task of financial administration.

The increase in the price of rubber had unfortunately not been maintained. The apparently good effect of the curtailment of output could only really be felt if the curtailment was general.

### WEI-HAI-WEI NEGOTIATIONS.

#### FOREIGN INTERESTS SECURE.

LONDON, May 30.

In the House of Commons, in answer to questions, Mr. Ronald McNeill, Under Secretary for Foreign Affairs, said that negotiations for the return of Wei-Hai-wei to China had been resumed. The Government was not able yet to make a statement on the subject, but he assured the questioner that all private interests in the territory were receiving full consideration.

[Wei-Hai-wei, on the North East coast of the Shantung peninsula, was leased to Britain who used it as a naval station. The territory is being handed back under the Washington agreement.]

## TERRIBLE EARTHQUAKE.

### 4,000 PEOPLE KILLED.

ALLAHABAD, May 30.

The Pioneer learns from Meshed that the fatalities in the earthquake at Turbatidari are estimated at 4,000.

[Yesterday's cables reported that an earthquake at Turbatidari had caused thousands of deaths, whilst several villages have been devastated.]

## DAVIS CUP TENNIS.

### FIRST DAY'S RESULTS.

BRUSSELS, May 30.

For the Davis Cup the first day's results were as follows:—Lycett (Britain) beat Watson (Belgium) 6-2, 8-6, 6-2. Washer (Belgium) beat Gilbert 6-2, 4-6, 6-2, 6-3.

## OBVIOUSLY STOLEN.

### SILVER CIGARETTE CASE FOR THIRTY CENTS

Mr. Fred D. Tracy, of the Standard Oil Co., who lives at No. 6, Thorpe Manor, May Road, was the complainant in a case before Mr. E. B. Lindell this morning when an old Chinese was charged with the larceny of a silver cigarette case, or, alternatively, with receiving

stolen property. Detective Sub-Inspector Cotton conducted the prosecution.

Mr. Tracy, in the witness box, stated that he returned home at 1.30 on Saturday night and next morning he missed the case which had disappeared with his coat, underclothing and other articles. A pawnshopkeeper's accountant also gave evidence. He explained how, when defendant came to his shop with the case, he placed it in a box which had been concealed by

the police and had reason to suspect him.

Defendant pleaded that he purchased the article from a marine hawk for thirty cents. His Worship found him not guilty on the charge of receiving stolen property, remarking: "It is perfectly clear, no coolie would buy a silver cigarette case for thirty cents unless he knew it was stolen." Sentence of three months' hard labour was imposed.

## FINDING THE MONEY.

### GERMAN REPARATIONS OFFER.

#### RUHR STRIKES END.

(Reuter's Service to the China Mail.)

BERLIN, May 30.

Following a meeting of representatives of agriculture, the delegates informed Herr Cuno, the Premier, that agriculture was prepared to contribute 200,000,000 gold marks a year to reparation.

The strike movement in the Ruhr is waning, the new agreement increasing wages apparently satisfying even the Communists. Mass meetings of strikers at Gelsenkirchen and elsewhere decided to resume work.

## SEIZED BANK NOTES.

ESSEN, May 30.

Replying to a German protest against the seizure of 97 milliard marks from the Reich Bank at Essen, General Degoutie says the notes were seized because the German Government had not paid the cash for maintenance of the French and Belgian troops in the occupied territory. The money will not be returned. General Degoutie does not give an assurance that there will be no similar seizures.

## MORE RUHR EFFECTS?

BERLIN, May 30.

At the annual meeting of the Reich Bank, the President, Herr von Havenstein said that the deterioration in the country's finances and economic life had made ruinous progress with the result that calls on the Reich Bank had increased eleven or twelve times. The note circulation had risen to 1,280 milliards and the wholesale index prices from 3,665 to 147,500.

## BELGIUM FEELS STRAIN.

BRUSSELS, May 30.

In order to meet the necessities of the occupation of the Ruhr, a bill has been introduced to increase the term of service in the army fourteen months.

The Minister of Defence said the extra service would cease when the occupation ended.

The Socialists intimated inflexible opposition.

## LESS WAR!

### PRESIDENT HARDING'S APPEAL.

#### AMERICA'S DUTIES.

WASHINGTON, May 30.

Speaking at a memorial day commemoration in the Arlington military cemetery, President Harding declared that the United States had proved there could be less armament and should now strive for an assurance that there could be less war. The United States could not and should not avoid its world relationship.

"We cannot guarantee but we can promote peaceful adjustments of disputes and aid the establishment of agencies for peace. If the national honour again call the United States to arms it will be the duty of the country to use every research, every activity and all its wealth to make common cause for the nation's preservation."

## STEAMER COLLISION.

### DUTCH PILOT CLEARED.

THE HAGUE, May 30.

The Court of Appeal has acquitted the pilot Breed who was sentenced to six months' imprisonment in connection with the collision between the steamer "Zuiderdijk" and the British steamer "Ezardiadend" last year.

## ALLEGED SEDITION CONSPIRACY.

LONDON, May 31.

An O'Brien and eight other Irish deportees were charged at Bow Street with seditious conspiracy. They were remanded until to-morrow.

[These men were among those deported during the big March round-up and brought back when the Appeal Court ruled that the Home Secretary could not order the internment of a person in the Irish Free State.]

## AMERICAN TENNIS CHAMPION

LONDON, May 30.

Mrs. Mallory opened her British tour with the Middlesex Championships at Chiswick. She entered the 5th round without the loss of a set.

## LAMMERT BROS.

Public Auctions

Underwritten have received instructions to sell by Public Auction,

THURSDAY, July 12, 1923, commencing at 3 p.m. at the old premises of the Hongkong Electric Co., Wing Fung Street, Wanchai.

Two (2) 550 H. P. Diesel Generators Complete with alternators & exciters  
Three (3) 300 H. P. Diesel Generators Complete with alternators & exciters  
Two (2) 550 K. W. Steam alternators complete with exciters and switchboards  
One (1) Babcock & Wilcox water tube boiler complete with fittings and chain grate stoker  
One (1) 10 ton travelling crane and a large quantity of structural steel work on the premises

Now on View.  
For Further Particulars and terms of Sale apply to the Underwriter.

LAMMERT BROS.

Hongkong, May 23, 1923.

MYSTERY SHIP.

TRANSATLANTIC FISHING VENTURE.

A trim little craft of 200 tons, known as the "mystery ship," which for some time has been lying in the West Dock, Cardiff, has slipped away on a pioneer expedition across the Atlantic. She was the "George Cochrane."

Curiosity was excited when bulky parcels arrived daily and none except those on board knew the destination of the vessel.

But with her departure the mystery has been cleared. The "George Cochrane" is bound on an expedition to the Great Lakes of North America.

In charge of Lieut.-Commander Frank A. Worsley, D.S.O., R.N.R., she is attempting to open up a new fishing industry that will be within the reach of small British craft. The commander is well fitted to lead the expedition. He was chief navigating officer of the "Quest" in Sir Ernest Shackleton's expedition to the South Polar seas, and captain of the "Endurance" in Shackleton's South Pole expedition.

The signing on of the crew was only completed a few hours before the vessel left the port. Those who planned the venture are confident it will prove a financial success and add one more link to British trade.

## ODDS AND ENDS.

MAINLY SCISSORS LOOT.

Lucky Violet.

What is your lucky flower? I am sure I don't know mine, but I have met an ex-soldier who is convinced that he carries luck with him when he carries violets, a writer in the *Sunday Express* tells us. He was selling violets in South Audley Street recently, and the Prince of Wales, who was passing, bought a bunch. The Prince inquired into the man's war record—gave him a sovereign—went home—instituted inquiries—found out the man's record was true. The man is not selling violets now, but he swears he will always carry some about with him—like "rosemary for remembrance."

Bronze Age Relics.

Mr. J. J. MacL. Mann, the well-known Glasgow archaeologist, has not yet been induced to divulge the secret of the scene of the recent antiquarian discoveries "within a good walk of the Glasgow Royal Exchange." Digging operations have been proceeding for some time in the burial-places of people belonging to the Bronze Age, and it is understood that in all twelve graves have been located. Beautifully made-jewels found there have now been placed on exhibition in the Kelvingrove Museum.

Canada's Oldest Couple.

Married in 1857, at the time of the Crimean War, Mr. and Mrs. Andrew Rutherford, of Bradwardine, Manitoba, and formerly of Selkirk, Scotland, are believed to be the oldest married couple in Canada. Mr. and Mrs. Rutherford, who were both born in Selkirk, are respectively 91 and 90 years old. They live today within a few miles of the homestead they took up in 1882. In their home, where they have resided since 1916, they do all their own work. They have had 11 children, 10 of whom are alive today. In addition, there are 57 grandchildren and 37 great-grandchildren. In Scotland Mr. Rutherford was a carpenter, but the stories of the fertile plains of Canada led him in 1882 to emigrate and take up agriculture in the Dominion, where land could be had for the asking.

Curious Hay Storing.

There is practised in Kashmir, India, a novel method of putting fodder up for winter use. The country lies in a valley among the Himalayas. The chief industry of the people consists of raising fine wool and making this into fabrics which have carried the name of the country all over the world. A curious custom in some places is that of hanging quantities of hay up among the branches of trees, the *New York Herald* tells us. Why this is done is more than the stranger can guess, and he is much puzzled until some native informs him that in winter the snow lies five and six yards in depth and that the supplies of hay, which as he now looks at them seem only as if intended for giraffes, are then easily reached by the flocks of sheep, which abound there.

What London Drinks.

Over seven million people in the London area use about 225,000,000 gallons of water every day in normal circumstances (writes Walter Reynolds in the *London Evening News*). Fortunately London is built on a bed of clay 110 ft. thick, under which is a bed of grey sand 30 ft. to 35 ft. thick. Under this, all over the London area, lies the great bed of chalk, 600 to 700 ft. deep, and lined with flints, which is saturated with pure water. This supply, from which one-fifth of the water of London is obtained, is tapped by numerous artesian wells. One of them is under the Bank of England, and another supplies as much as 3,000,000 gallons every 24 hours. Many people have the idea that it is dangerous to use river water from the lower reaches; yet London, which can claim to be the healthiest city in the world, gets no

less than 60 per cent. of its water from the Thames and the River Lea—and more than half of it from the Thames. The Metropolitan Water Board does, in fact, supply an area of 550 square miles, and aims at storing enough to supply 85 gallons per day per person to 8,000,000 people, which is, after all, something more than 1,000,000 tons of water daily.

World's Largest Mammal.

The Staff Association of the Natural History Museum, London, held a scientific reunion recently and among the several interesting objects on view were the fossilized portions of the skeleton of the largest land mammal yet found. They were discovered in Baluchistan by Dr. F. J. Cooper, of Cambridge, and since then the skull of a similar animal has been found in China. This skull is five feet long, which gives some idea of the immense size of the animal. It belonged to the Lower Miocene period. A very interesting exhibit was described as the fauna of submarine telegraph-cables, and has just been presented by the Eastern Telegraph Company. Portions of cable fished up from a depth of 750 fathoms were shown with shark's teeth still sticking in the heavy wire covering of the cable. It was explained that sharks are wont to dive to this great depth in order to gorge on the wonderful assortment of sea animals which cluster round the cable. It is understood that the Museum authorities are considering the question of displaying the better known mammals from a scenic aspect. For that purpose Captain Dollman showed a model of the elephant at home from which it is proposed to base the life-size exhibit in the Central Hall. The elephants are seen feeding in a clearing on the Addo Bush (South Africa), the trees and flowers being copied from nature.

Butter From Fish.

Butter from a fish? Sounds ridiculous, but it is true (the *New York Herald* tells us). In March only the butterfish, or colichman, comes from the unknown depths of the Pacific up the rivers of British Columbia to spawn. It is almost pure oil, and it is to the Indians of the region what butter is to Anglo-Saxons and olive oil to southern Latin races. The Indians get a year's supply of the equivalent of life-sustaining fat of other nations in three weeks. Then the fish is seen no more for another year. The fish, from six to eight inches long, are taken in millions by Indians in nets then thrown into rough cedar bins ashore to soften in the sun, the first of the fat-rendering process. After a week or so in the sun, according to the weather, the fish are put in great cedar vats of boiling water; the water heated by dropping hot stones continually. This, oddly enough, makes better colichman butter than boiling the white man's way. A parallel may be cited in old and new methods of producing maple sugar. The oil is skimmed off into cedar box containers holding from ten to twenty gallons, and hardens to an appearance very much like lard. The cedar box containers are narrow works of joining, and are watertight. The colichman butter when well made is palatable and contains no strong fishy taste. Needless to say, there are as many grades of good and bad colichman butter as cow's.

IS THIS YOU?

Some people live in an eternal gloom. They believe themselves to be the object of all the vexations that beset mankind. Petty grievances and trivial troubles vex and irritate beyond endurance. They magnify little annoyances that would pass by other people, with stronger nerves, unnoticed.

Admit that you yourself feel like this at times—everybody does in the far East. These fits of gloom and grumble are the signals of nerve exhaustion, and will recur with greater frequency as time goes on unless prompt measures are taken to set things right.

To do this is simple enough if you go to the root of the trouble, weak blood. This poor blood is failing to supply sufficient nourishment to your nerves; it lacks the strength, energy and purity that Dr. Williams' Pink Pills have served in many thousands of cases of nerve exhaustion and debility caused by weak blood. By building up the blood, making it pure and healthy, and filling it with nourishing red corpuscles, Dr. Williams' Pink Pills in thirty years have gained a world-wide reputation as the greatest blood tonic known.

Weak blood needs a blood tonic on occasion. If you do so

Dr. Williams' Pink Pills are obtainable from leading druggists everywhere, and direct from the Dr. Williams' Medicine Co., 60 Kingston Road, Shanghai. 1 bottle \$1.50, 6 for \$8.00, post free.

## RUBBER P A

VALUE FOR BRIDGES.

Rubber producers the world over yearn for a new and a great outlet for crude rubber, states the *Indian Rubber Journal* of New York. Something that will parallel the pneumatic tyre, for example. While much has been done, the results in no way suggest uses comparable with that of tyre manufacture. A recent development, however, in bridge work looks large. It will be recalled that some years ago the troublesome vibration in the Goethe Bridge, Hanover, Germany, was corrected by the use of rubber pavement. Now comes the problem of rebuilding Harvard Bridge, connecting Boston and Cambridge, Massachusetts, at a cost of \$7,000,000, or of making it secure and vibrationless at the cost, say, of \$500,000. Undoubtedly the latter plan will prevail. Once this is accomplished other great bridges, passenger and railroad, will find it economical to follow suit. It is possible also that the elevated systems in New York, Chicago and Boston will adopt rubber cushioning devices that will greatly lessen vibration, save in upkeep, and be a godsend to adjacent property owners.

The rubber roadway, thus introduced because of necessity, would utilise thousands of tons of rubber annually. Once its value as a vibration-killer and a sound silencer, together with its wonderful durability, is generally appreciated rubber pavements about hospitals, hotels, churches, business blocks and private residences will be assured.

TOO EXPERIMENTAL FOR THE

CENOTAPH.

We have noted, on a previous occasion, the suggestion that the roadway round the Cenotaph should be paved with rubber blocks, had been made to the Westminster City Council. It was pointed out that:—

"The noise of passing vehicles initiates very seriously against the solemnity of the pilgrimages made to this shrine from all parts of the world, and that if rubber paving blocks were utilised visitors would be impressed by the hush."

The City Engineer is not prepared to advise the laying of rubber pavement round the Cenotaph unless the proposers are prepared to supply the necessary material.

"The use of rubber roadways is still very largely in the experimental stage, and until more experience has been gained as to the manufacture, laying, and durability of rubber blocks it is not considered advisable to recommend expenditure in this direction."

The Works Committee of the Council recommend that the matter be left in abeyance for further developments. Whitehall is to be repaired this year, and it is asserted that when this has been done the noise of traffic will be reduced.

LORD CHIEF IN

"BREEZE."

STERN RETORT TO FAMOUS COUNSEL.

There was a "breeze" between the Lord Chief Justice and Sir Edward Marshall Hall in the King's Bench Division during the hearing of the libel action brought by the Performing Right Society, Ltd., of Hanover-square, against the British Music Union, Ltd., Mr. W. Cartwright Newsum, and Messrs. Lowe & Brydson, printers.

The plaintiffs allege that in a preface to a catalogue of music, the defendants libelled them by stating that their profits were devoted to the benefit of certain of the members at the expense of poor authors and composers, and that their methods were tyrannical and extortionate.

The Lord Chief Justice had observed that he would tell the jury that the consideration of what people had said or written was irrelevant to the

HONGKONG, THURSDAY, MAY 31, 1928.

## OPIUM.

Coming under the heading "British Eastern possession," Hongkong will read to-day's opium cable with more than passing interest. Seeking to have the drug used considerably less, the League's Opium Commission suggests that Powers having Eastern possessions where opium smoking is permitted should forthwith hold a special conference. This conference, the Commission urges, should also formulate an agreement making possible uniform opium laws. Officially the Commission seeks only to make existing measures more effective, and "to pave the way to a reduction in the quantity of the drug used." Actually, however, its ultimate object (clearly) is nothing less than the complete suppression of the traffic, except for legitimate medicinal and scientific requirements. Before that lofty aim can be reached much heavy work must yet be done. Hongkong provides the typical example. Here the Government is striving, despite the heavy revenue loss entailed, to eliminate smoking by rigidly enforcing the monopoly which enables it to reduce the drug's potency and make the price ever more exacting.

Public smoking resorts (opium dens) have been abolished since 1910; the traffic has been a State monopoly since 1914; the consumption has fallen in the last ten years from 600 chests to 240 per annum; and purchasers are rationed. This is good, very good. But Hongkong's efforts are largely defeated because China still grows opium with little real check and smuggling is rampant. This Colony's success depends very much upon what happens in China. Then even if China were to eradicate opium entirely, other countries still produce huge supplies and the strictest precautions—witness Hongkong's efforts—would not prevent some portion, some very large portion being successfully smuggled. Obviously only one remedy exists. Production must come under rigid control in every country and only enough permitted for medicinal uses. This the League realises. But also it realises the way is long. Hence its policy of making haste slowly, a policy which will succeed as no rash, sudden action could with this very thorny problem.

## Handwriting.

There is that story of the Irishman who on being asked if he could read certain Chinese characters shown to him, replied "Bedad, No! But let me get my violin and I'll play it." The same might be said of English "characters" in the way that certain people write them, adding to life's worries not a few. A beautiful penmanship is not to be desired. It goes along with a lovely head of hair or gorgeous whiskers. In the absence of the ubiquitous typewriter, and for the sake of one's correspondents, one's friends, and humanity in general, one should learn to write so that the writing can be read. Here are some rules, few and simple to guide the erring one.

Rule 1.—Separate your letters. Ninety-nine of the illegibility of

manuscript is due to jamming letters together.

2.—Watch the six letters i, e, u, m, n and v. They are the cause of writing. E should not be made with a loop but like a reverse 3, so that it will never be taken for an i. The letters n and u are nothing alike if writing them correctly is practised. Always make the n with the shoulder up and the u with the shoulder down. If the word minimum can be written legibly, the writer may be considered a good penman.

3.—The little tails on b, v, o and w should not be forgotten.

4.—Distinguish between a and o. Always bring the last stroke down along the body of the letter in a, never in o.

5.—Curve c over.

6.—Don't write d like et.

7.—Never loop a t; always loop the l.

There are five more rules, including No. 8 which reads "Give plenty of abdomen to a, d, g and q, but seven are sufficient to be going on with these hot-dogs. And in any case we haven't obtained the permission of the "authorities" on handwriting to make use of his advice. We must write Dr. Frank Crane about it—on a typewriter.

## Kowloon Ferry Traffic.

A correspondent has written to the papers drawing attention to what is undoubtedly becoming a serious traffic problem in Kowloon. He considers that "users of the Star Ferry must be at their wit's end as to the safest route to take when leaving the Ferry owing to the congestion of traffic now caused by the motor buses, which now commence their journey from a point quite near the waiting room and proceed on the same route as rickshaws. The point near the waiting room which the two more or less rival motor bus lines use as an anchorage is the base of a triangular patch in the middle of the roadway with its apex pointing away from the sea. The buses go around the triangle anti-clockwise fashion and mingle with the stream of rickshaws, motor cars, motor cycles, bicycles and temerarious pedestrians which flows away every few minutes from the Ferry Wharf, and usually encounters a similar stream of traffic making its way ferriwards. With a jitney service and a fleet of taxis threatening to turn the ferry's vicinity into a miniature Marble Arch it seems high time that the C.S.P. put a policeman on permanent duty there. Otherwise there'll be a nasty smash-up on the roadway one of these days and an inquisitive Coroner's jury may want to know the reason why.

## LOCAL AND GENERAL.

The Mercantile Bank of India has opened a branch at Simla.

A case of plague, three cases of enteric fever, all of which were Chinese, were notified yesterday.

Shanghai broadcasting begins this evening. It will be interesting to learn whether any local enthusiasts pick it up.

The silk forwarded from here by the s.s. "Empress of Australia" on May 28, arrived in New York on May 28, having been 24 days in transit.

The sole agency of Messrs Cookson and Co. Ltd., Newcastle-upon-Tyne, has been taken over by Messrs Sheehan Tomes and Co. from the China Mining and Metal Company Ltd.

The subject of direct mails between Sandakan and Hongkong and vice versa was discussed at a recent meeting of the North Borneo Chamber of Commerce and it was decided to ask the Government to communicate with the Hongkong authorities on the matter.

The report of the Police Magistrate's court for 1927 which is to be tabled at this afternoon's meeting of the Legislative Council shows that the number of cases was 18,221 as compared with 17,374 in 1921 and the revenue was \$159,928.50 as compared with \$149,957.72 in 1921.

The arbitration proceedings in connection with the disputed Derby Sweep ticket were continued at the Chinese Club last night when Mr. Chik Soong-sing, one of the rival claimants, continued his statement and was cross-examined at considerable length by Mr. Easley Zeitlyn who represents Mrs. Violet Chan, the other claimant. An adjournment was made to tomorrow night at 5.30 p.m.

The Far Eastern Times, of Peking, states that a battalion of British troops may be expected in North China in the near future, which will raise the British contingent in Tientsin and Peking to about 2,000 men. Whether a Hongkong battalion will come up in exchange for one under orders from Constantinople is not yet settled, but the reinforcement will arrive at the earliest possible moment.

## LEGISLATIVE COUNCIL.

## AMENDING RENTS BILL.

Consideration of the bill to amend the Rents Ordinance 1922 was the chief business before the Legislative Council at this afternoon's meeting. Before the meeting began Mr. H. T. Jackson, the acting D.P.W., and Mr. Chai Shi-ki were sworn in as members.

## ATTENDANCE.

There were present:—

The Hon. the Governor, Sir R. B. Stubbs, K.C.M.G.

The Acting Colonial Secretary, the Hon. Mr. A. G. M. Fletcher, C.M.G., O.B.E.

The Attorney-General, the Hon. Mr. J. H. Kemp, K.C., O.B.E.

Col. Davy, C.M.G., D.S.O. (representing the G.O.C.)

The Secretary for Chinese Affairs, the Hon. Mr. E. R. Hallifax, C.B.E.

The Director of Education, the Hon. Mr. E. A. Irving.

The Acting Director of Public Works, the Hon. Mr. H. T. Jackson.

The Colonial Treasurer, the Hon. Mr. C. M. Messer.

The Hon. Mr. H. E. Pollock, K.C.

The Hon. Mr. J. H. Kofewall.

The Hon. Mr. E. V. D. Parr.

The Hon. Mr. P. H. Holyoak.

Mr. S. B. McElderry, Clerk of Council.

## BELLIOUS TENANTS' PETITION.

The Hon. Mr. H. E. Pollock K.C. presented a petition from the residents of Bellios Terrace as follows:—

"We the undersigned occupants of Bellios Terrace, being together with our families over 200 persons, beg leave to petition the Honourable Members of the Legislative Council that some law may be passed to prevent us from being turned out of our present houses until we are able to obtain suitable accommodation elsewhere as reasonable rates. Such a legislative provision ought, we submit, to be inserted in the pending Bill to amend the Rents Ordinance, 1922, for the relief not only of our Petitioners but also of others in similar circumstances. Your petitioners, have received notice to quit expiring on August 1, 1923. We pray, therefore, that the Honourable Members of the Legislative Council will kindly grant to your Petitioners and to others in the like case, the relief aforesaid."

## RENTS BILL.

The Attorney General then moved the first reading of a Bill intituled an Ordinance to amend the Rents Ordinance, 1922. He explained that the guiding principle of the new measure was a negative one—that was, it did not extend the provisions of the Ordinance to any new class of premises but was meant to carry out better the original intention of the Ordinance.

The Bill was read a first time.

## OTHER BILLS CARRIED.

The remainder of the bills on the notice paper—one providing for police supervision of certain persons, one authorising the imposition of fees for the issue of certificates to Chinese proceeding to foreign countries and one providing for the incorporation of the Directors of the Y.M.C.A. were all carried.

## ADJOURNMENT.

The Council adjourned to Thursday, June 14 at 2.30 p.m.

## LOCAL AND GENERAL.

The Ladies' Clubhouse at Fanning is to be closed with the exception of the two dressing rooms and all meals will be served in the dining room of the Clubhouse.

Blake Garden is used by increasing numbers of people each year and more space is badly needed, according to the report of the Botanical and Forestry Dept. for 1927 just issued. When a sufficient quantity of soil from adjoining building sites is available a further section of the valley will be filled and levelled.

The total area of land sold and granted on lease during 1927 was 24 acres odd, according to the report of the Land Office tabled at this afternoon's meeting of the Legislative Council. Deeds and documents affecting 5,455 lots of land were registered, the total money consideration on the transactions being 107,322,435.38. Stamp Duty paid on registered documents exclusive of Probates and Letters of Administration registered amounted to \$21,668.50. Stamp Duty on Probates and Letters of Administration registered amounted to \$2,258.50.

## OUR "LIFE-BLOOD."

## SHIPPING IN 1922.

## HARBOUR MASTER'S REPORT.

Some interesting shipping statistics are given in the report of the Harbour Master for 1922 which was tabled at this afternoon's meeting of the Legislative Council.

## INTER-ALIA.

The total shipping entering and clearing at ports in the Colony during the year 1922 amounted to 708,244 vessels of 46,666,764 tons, which, compared with the figures of 1921 show an increase of 3,445,994 tons. Of the above 50,427 vessels of 29,543,564 tons were engaged in Foreign Trade as compared with 52,222 vessels of 27,852,616 tons in 1921.

Of vessels of European construction 5,318 Ocean Steamers, 3,552 River Steamers and 3,243 Steamships not exceeding 60 tons, entered during the year, giving a daily average of 312 ships as compared with 338 ships in 1921 and 294 ships in 1920. The average tonnage of Individual Ocean Vessels entering the Port has increased from 19,919.8 to 2,068.6 tons, that of British ships has increased from 1,997.5 to 2,131.0 tons while that to the Foreign Ships has increased from 1,857.9 to 1,957.7 tons.

The average tonnage of Individual River Steamers entering during the year has increased from 460.5 to 598.8 tons.

That of British River Steamers has increased from 570.5 to 822.8 tons, and that of Foreign River Steamers has increased from 316.7 to 318.9 tons.

In Steamships not exceeding 60 tons employed in Foreign trade, there is a decrease of 167 ships with an increase in tonnage of 4,636 tons or 12.9 per cent. in numbers and 0.6 per cent. in tonnage. This is due to larger launches being employed in Foreign trade and a number of small launches being laid up owing to the unsettled state of Canton where many small launches were commandeered by the armies.

## JUNK TRADE DECREASE.

Junks in Foreign trade show a decrease of 1,370 vessels, and a decrease of 583,639 tons or 51.9 per cent. in numbers and 9.9 per cent. in tonnage. This is due to the number of Junks held up during the Seamen's Strike.

In Local trade (i.e. between places within the waters of the Colony) there is an increase in Steam-Launched of 42,168 or an increase of 1,729,438 tons or 7.1 per cent. in numbers and 12.2 per cent. in tonnage. This is due to a greater number of launches employed, towing and transporting workmen and material for reclamation work. Junks in Local Trade show a decrease of 4,809 vessels and a decrease of 274,592 tons or 12.6 per cent. in numbers and 2.5 per cent. in tonnage. This decrease is due to the number of Junks laid up during the Seamen's Strike.

A decrease is shown in British Ocean-going Shipping of 83 ships or 9.0 per cent. and an increase of 441,694 tons or 32.8 per cent. This decrease in numbers is due to the sale of the s.s. "Hailong" to owners outside the Colony, the transferring of the s.s. "Burumbet" and "Majoristan" to the Chinese flag and to vessels being laid up during the Seamen's Strike.

The increase in tonnage is due to larger vessels frequenting the Port. British River Steamers have increased by 876 ships with an increase in tonnage of 211,933 tons or 67 per cent. in numbers and 12.6 per cent. in tonnage. This decrease in numbers is due to these vessels being laid up during the Seamen's Strike.

The River Steamers "Tin Sing" and "Wah Kiu" which were laid up, have now been put on the West River trade again. The increase in tonnage is due to the above vessels being put on the run and the two-deck measurement in all River steamers being now included in the tonnage.

Foreign Ocean-going vessels have increased by 266 ships, with an increase of 1,463,698 tons or 12.7 per cent. in numbers and 47.6 per cent. in tonnage. This increase is due to more and larger ships, German shipping now frequenting the Port and newly built ships, and the transfer of the s.s. "Burumbet" and "Majoristan" to Foreign Owners.

Foreign River Steamers show an increase of 434 ships with an increase in tonnage of 152,627 tons or 44 per cent. in numbers and 2.5 per cent. in tonnage. This increase is due to the steam launchers "Hui Hol" and "Wu Fu" being transferred and registered as River Steamers, the two-deck measurement in all River Steamers being now included in the tonnage.

The actual number of Individual Ocean-going vessels of European construction during the year 1922 was 1,092 of which 410 were British and 682 Foreign. In 1921 the corresponding figures were 988 of which 343 were British and 645 Foreign.

These 1,092 ships measured 3,202,516 tons. They entered 5,318 times and gave a collective tonnage of 11,000,748 tons.

These 1,092 ships entered 86 more times and gave a collective tonnage greater by 95,636 tons, an average of 11,150 tons per entry.

## REVENUE AND EXPENDITURE.

The gross Revenue collected by the Harbour Department during the year was \$857,576.64 as against \$800,798.13 collected in the previous year showing an increase of \$56,777.91 or 6.62%.

## STEAM LAUNCHES.

On the 31st December, 1922, there were 421 steam-launches (including licensed motor boats) employed in the harbour. Of these, 375 were licensed for the conveyance of passengers, etc. 30 were the property of the Colonial Government, and 22 belonged to the Imperial Government, comprising 4 Military and 18 Naval. In addition to the above there were 25 motor boats privately owned for pleasure and private purposes.

Seven coxswains' certificates were suspended for incompetence or negligence in the performance of their duties; six for three months each and one for two months; the holders of five were required to pass a further examination after the expiration of the period of their suspension, before their certificates were returned. Five hundred and sixty-one (561) engagements and five hundred and sixty-six (566) discharges of Masters and Engineers were made during the year. Seven (7) steam-launches were permitted to carry arms for their protection against pirates.

## EMIGRATION AND IMMIGRATION.

Ninety-eight thousand, three hundred and ninety-three (98,393) emigrants left Hongkong for various places during the year 1922, (156,011 in 1921). Of these, 52,638 were carried in British ships, and 45,755 in Foreign ships. One hundred and thirty-seven (143,547) returnees were reported to have arrived from Hongkong from the various places to which they had emigrated either from this Colony or from Coast Ports, as against 159,064 in 1921. Of these, 85,057 arrived in British ships and 58,490 in Foreign ships.

## REGISTRY OF SHIPPING.

During the year, 33 ships were registered under the provisions of the Merchant Shipping Acts, and 14 Certificates of Registry cancelled. 376 documents, etc., were dealt with in connection with the Act, the fees on which amounted to \$3,412.00 as compared with \$1,902.00 in 1921.

## MARINE MAGISTRATE'S COURT.

Three hundred and six (366) cases were heard in the Marine Magistrate's Court (354 in 1921). Regarding ships without permission, failing to observe the Rule of the Road, Making fast to steamers while under way, Neglecting to exhibit the Regulation lights, Being in Causeway Bay Harbour of Refuge without permit, Being within 100 yards from low water mark during prohibited hours without permit and Carrying passengers in excess were the principal offences.

## LIGHTHOUSE.

During 1922 nine hundred and ninety (990) vessels were reported by telegraph as passing Cap Rock and nineteen (19) were not reported owing to cable telegraphic communication being interrupted.

On July 18th a Marconi W. K. W/T apparatus was installed and regular communication was maintained with Cape D'Aguilar during cable breakdowns which occurred for a total period of 34 days 15 hours during which time three hundred and fifty (350) messages were sent and fifty-one (51) received. On August 8th the Matthews Kitson burner was superseded by the "Hood" petroleum vapour burner; the latter is an improvement on the former both in simplicity and the greater intensity of the light produced.

There were one hundred and twenty-eight hours and forty minutes (128 hours 40 minutes) of fog and the fog signal was fired eight hundred and five (805) times. The fortnightly reliefs were delayed eight (8) times during the year owing to bad weather.

During 1922, two thousand eight hundred and fifty-eight (2,858) vessels were reported by telegraph as passing Waglan, and one hundred and thirty-eight (138) were not reported owing to telegraphic communication being interrupted.

Of the total number passing seven hundred and eleven (711) vessels of various nationalities were signalled at night by Morse lamps. Telegraphic communication was interrupted on seventeen (17) days during the year. There were three hundred and ten (310) hours of fog and the fog signal was fired three thousand one hundred and eighty (3,180) times. On four (4) occasions the fortnightly relief was delayed owing to bad weather.

On August 12th in the case of Cap Rock the "Hood" petroleum vapour burner was installed in place of the Matthews Kitson burner and has proved satisfactory. On September 4th the erection of the Diaphanous Fog Signal plant was completed, and since that date many tests have been made, but the signal is still in the experimental stage.

During the year, one thousand and eighty-eight (1,088) vessels were signalled at Green Island and reported in addition to which three hundred and forty-two (342) messages were sent and forty-one (41) received.

Owing to telegraphic communication being interrupted thirty-nine (39) vessels were not reported. On July 15th the light was converted to the Automatic Aga system and the character of the light altered from occulting to flash namely 2 seconds light and 6 seconds eclipse.

## LIGHTHOUSE.

The Kap Sing has been regularly inspected and has worked satisfactorily throughout the year. The number of Aga lights (including Green Island) is now 15 and all have been burning continuously, accurately and satisfactorily during the year.

## SIGNAL STATIONS.

The Peak Signal Station reported four thousand five hundred and fifty-one (4,551) ships during the year and the Gun signal denoting the arrival of Mail steamers was fired one hundred and fifty-three (153) times.

Signal Hill Station reported four thousand six hundred and twenty-two (4,622) ships as entering and two thousand seven hundred and sixty-four (2,764) as leaving the harbour.

One hundred and twenty-two (122) Typhoon signals and six (6) gale signals were hoisted during the year.

## GOVERNMENT HARBOUR MOORINGS.

There are at present laid down in the Harbour for the use of vessels frequenting the Port fifty-six (56) complete sets of Government Harbour Mooring.

The total expenditure on the upkeep on Government Harbour Mooring and Buys for the year was \$23,802.24. The gross revenue for the year was \$105,805.02.

## SEAMEN'S STRIKE.

On January 13th a dispute over Seamen's wages arose between the Chinese Seamen's Guild and the Ship owners of the Colony. The Chinese Seamen of British and Foreign Ocean and River Steamers went on strike and left their ships. All Government Harbour Mooring, Buys were occupied during the strike and in addition large areas (a) South of Stonecutters (b) Wanchai Bay and (c) Kowloon Bay were used for berthing vessels. On February 8th there were 168 ocean-going vessels in the Harbour of a total registered tonnage of 277,154 tons. Throughout the period (13th of January until 6th March) the weather was fine and no accident occurred to vessels berthed at Mooring Buys, as mooring or at what was during the continuation of the strike although the vessels were without crews.

## "STAR" FERRY COY.

## DIVIDEND AND BONUS.

The report of the "Star" Ferry Co., Ltd., for presentation to shareholders at the twenty-fifth ordinary annual meeting held at the Offices of Messrs. Jardine, Matheson and Co., Ltd. at noon to-day, states:—

The Directors have the pleasure to submit to Shareholders their report, with a statement of accounts, for the year ended April, 30, 1923.

The net earnings of the boats, after paying all working expenses, amounted to \$221,277.32, as against \$156,265.19, the previous year.

The amount at credit of Profit and Loss account, after paying for repairs, allowing of Directors' and Auditors' fees and depreciation and placing \$75,000 to credit of Special Repairs Fund and \$10,000 to credit of Accident Fund) including \$34,619.41 brought forward, is \$193,620.20, which, with the approval of Shareholders, it is proposed to appropriate as follows:—  
To pay a Dividend of \$2,800,000.00  
" a Bonus of \$2,800,000.00  
" carry forward 33,620.20  
\$193,620.20

## Directors.—In accordance with the Articles of Association, Mr. D. G. M. Bernard, retires but being eligible offers himself for re-election.

Auditor.—The accounts have been audited by Mr. C. Bernard Brown, A.C.A., who offers himself for re-election.

## OUR FINANCES.

July 15th the light was converted to the Automatic Aga system and the character of the light altered from occulting to flash namely 2

## LINCHENG OUTRAGE.

## TWO CAPTURED FOREIGNERS RELEASED.

TSACHUANG, May 31. Major R.A. Allen and Mr. Smith have been released.

TSACHUANG, May 31. Mr. Pinger and Mr. L. C. Solomon have been removed from the top of Paotzuku.

## LINCHENG CAPTIVES.

## TWO OF THEM RELEASED.

TSACHUANG, May 31. Major Allen and Mr. Smith have been released.—*Reuter.*

FOREIGN MILITARY COMMISSION. PERING, May 30. The Military Mission will probably not leave Tsachuang before Friday, Major Chiang having declined to act as the Chinese representative.

It is understood that the foreign members of the Commission will meet the diplomats at Peking on Thursday and discuss the situation.—*Courtesy Daily Bulletin.*

## CHIH-FENG-TIEN WARFARE.

## SHAN-HAI-KWAN PEACE CONFERENCE.

PERING, May 30. A message from Shan-Hai-Kwan, dated May 29, states that General Sun Lih-chun, General Wang Chen-ping, General Lu Chin and General Lu Chün-han have arrived to participate in the Chih-Feng-Tien Peace Conference.

It is expected that a formal start will be made on Friday.—*Courtesy Daily Bulletin.*

## PEKING NEWS.

## YANGTZE VALLEY UNIVERSITY.

PERING, May 30. On Monday, President Li Yuan-hung invited representatives of the gentry of Hunan, Hupoh, Kiangsi and Honan to consider the establishment of a university in the Yangtze Valley.

## ENGINEERS' CONVENTION POSTPONED.

PERING, May 30. The spring convention of the Chinese and American Engineers' Association, which was fixed to be held at Tsingtao next week, has been postponed.

## BANK OF CHINA.

PERING, May 30. A mandate abolishes the post of supervisor of the Bank of China at Shanghai.—*Courtesy Daily Bulletin.*

## ROUND THE WORLD.

## CHINESE JOURNALIST'S UNUSUAL TRIP.

Very daring is the task undertaken by Mr. Kwee Kheng Liong, a young Chinese journalist who called at the *China Mail* Office this morning. He is travelling round the world without taking a cent from home, making his expenses solely by the sale of photographs. Mr. Kwee Kheng Liong left Batavia, Java, on August 30 last year. He has now visited Malaya, Siam, and Indo-China. From Hongkong he goes to Canton, thence overland to Shanghai. After that he visits Peking, Japan, Siberia, Europe, England, Scotland, America (North and South), Australia, and then once more Java where he will resume his usual work. Mr. Kwee Kheng Liong has a book which already contains many interesting entries, including good wishes from journalists, officials and others at the places he has visited. That it will be a very notable record by the time his unusual adventure is over can readily be understood. Mr. Kwee Kheng Liong leaves Hongkong with the best wishes of his fellow journalists.

## RIVER PERILS.

## WARSHIP OPENS FIRE ON JUNK?

It is stated locally that an H.M.S. "Moth" was coming down the Canton River last evening, a junk carrying Cantonese soldiers, opened fire on her. The gun-boat replied and seriously damaged the junk. On enquiry being made at the Commodore's office, the story was not then denied but confirmed. It was admitted, however, that probably the story was true as such incidents were continually happening. Naval orders apparently are that unless H.M.S. ships are damaged, reports are to be sent by mail.

## THE FRAWLEY CO.

## LAST NIGHT'S THEATRE SUCCESS.

The Frawley Co. is obviously a Repertory Company and yet it does not play Repertory plays. At least what are popularly designated Repertory plays. You know the kind perhaps. A Canadian humourist—(Yes, of course, Mr. Stephen Leacock)—has dubbed a Repertory play one where the actors come on and brood, and brood, for acts.

The members of the Frawley Co. appear, but they do not brood. They speak, declaim, recite, call it what you will, and you sit up and take notice.

Doubtless the writing of plays is a simple matter. You do what the Repertory Actor does; you brood, and after separating the ideas that result, the wheat from the chaff so to speak, you breathe into the dry bones of your favourite brooding, clothe it with the semblance of a story, dress it up in smart dialogue with some snappy epigrams—and then get someone to produce it. That is what Mr. Samuel Shipman did when he brought forth "Lawful Larceny."

Listen! Mrs. Marion Dorsey goes West! No she does not die—she does the nearest thing, she takes a holiday. At this moment we introduce Mr. Andrew Dorsey and find he has been doing things, whilst Mrs. Dorsey has been away, taking up with what is known as a Vamp. He plays cards just as we do—very badly, but unlike us he signs away his securities, and his money, including a bill for \$25,000 (gold—real American gold) which, as this is a Stage play, he cannot possibly meet. On Mrs. Dorsey's return he confesses all his faults—and his undying love. Mrs. D. gets busy; enters the employ of the Vamp as her Secretary and finally "pinches" the Vamp's money and returns home triumphant, to one hopes, an unclouded future. Living as we do within sight of three cemeteries and a race-course, and thus being continually reminded that our numbers are always up, and being also young and unused to the ways of Society, we are unable to say if Mr. Shipman's diagnosis is true to life. We hardly think it is. In any case the author has provided some good speaking material, and we much regretted our inability to note some of the very clever things that floated over the footlights.

Besides, we were too much entranced with Miss Adèle Blood's impersonation of a dual role, and endorse all we said of her yesterday. Mr. Herbert Light as Andrew Dorsey was a very penitent husband, clear and articulate in his diction. Miss Betty Burnicoal—was, as usual, very good. She had our sympathy when, in the third act she vigorously consigned Guy Turrow (played by Mr. Bernard Neddel) to H.

There is nothing to add but that the curtain was raised several times at the close of each act and that a floral offering to Miss Blood earned our appreciation; also that Mrs. Harry Wood played the piano. We liked best a Henry VIII dance and Drola's "Souvenir." To-night Frawley's give "Smilin' Through" and have something good for each night following. —C. G.

## CORRESPONDENCE.

## TRAM TRAVEL JOYS.

[To the Editor of the "China Mail"]

Sir,—There will probably be no improvement in the matter of tram covers, to which your correspondent refers, and which are a disgrace and a menace to one's clothes and temper, until the officials of the Company (preferably with their lady friends) use the cars in wet weather. It should be within the wit of man to devise a simple construction of bamboo that would at least be watertight.

Well, the taxicabs are coming! Yours etc.

Hongkong, May 30.

## COMPANY REPORT.

## INDO-CHINA STEAM NAVIGATION CO., LTD.

The Forty-Second Ordinary Annual General Meeting of the Indo-China S. N. Co., Ltd., will be held at the Offices of the General Managers on Thursday, 14th June, at noon.

After providing for Depreciation, all Liabilities, Outgoings, and taking into account items transferred to Revenue Account, there remains a Credit Balance of £17,044.0.7 from which it is proposed to pay 6 per cent (6%) on the Cumulative Preferred Ordinary Shares, amounting to £14,876.14.0, leaving £2,167.8.7 to be carried forward to next year. Income Tax will be deducted from all Dividend Warrants issued in London but not on those issued locally, which will be payable at exchange of 24:1 being T.T. rate ruling on the 30th instant.

## TO-DAY'S NEW ADVERTISEMENTS.

## LANE, CRAWFORD LTD.

No Cabinet Model Value to compare with the COLUMBIA GRAFONOLA

## Look at THE MOTOR

THE motor of a gramophone is as the engine to a car—it is vital. And the motor in a Columbia Grafonola is the finest in any gramophone—an engineering unit, beautifully made, and mounted on an insulated steel plate. It is constructed with a reserve of power ensuring complete control, and, most important of all, holding the record speed absolutely true to pitch. Carefully examine the Columbia motor and compare with that in other gramophones.

## "STAR" FERRY MEETING.

## IMPROVING THE SERVICE.

## BIGGER BOATS PLANNED.

Plans for the future were mentioned by the Chairman (Mr. D. G. M. Bernard) in the course of his speech at the twenty-fifth annual meeting of the "Star" Ferry Company Ltd. held at the offices of Messrs. Jardine Matheson and Co., Ltd. this morning.

There were also present Mr. A. O. Lang (director), W. S. Brown (secretary), L. S. Greenhill, J. Hooper, J. Hyde, E. Sadick, J. T. Bagran and A. H. M. da Silva (shareholders).

The Chairman said:—Gentlemen, the report and statement of accounts have been in your hands for some days, and I will, with your permission, follow the usual custom and take them as read.

The earnings for the past year show a satisfactory increase on the previous year, and the balance available for appropriation is \$103,520.20, which includes \$34,619.41 brought forward from last year. Your Directors recommend the payment of a dividend of \$2.00 per share and a bonus of \$2.00 per share, absorbing \$160,000.00, leaving \$33,630.20 to be carried forward to this year's account, and I trust this will meet with your approval.

A letter was received recently from the Kowloon Residents' Association, drawing attention to the congestion during the busy hours. Your Directors are doing everything possible to cater for the requirements of the public with their present launches, but they have recognized for some time that the growth of the community in Kowloon calls for an improved service, and in order to meet the present day needs, they had plans prepared for larger boats, capable of transporting motor cars at the same time as passengers.

The Government have also been considering a service of a similar nature to run between Jordan Road and a point near the terminus of the present Yau Ma Tei ferries.

There are many difficulties to be contended with in carrying out the proposal that your Directors have had in mind, and now that it seems probable that there will be another Ferry Service in the near future, it is thought better to wait to see the outcome of that before carrying out any extensive development of our own service. Your Directors are therefore having the present launches thoroughly overhauled, so that they will be fit for service for some years.

The cost of reconditioning the launches amounts to a considerable sum. To provide for this, a special repairs fund has been created, and to this Fund \$75,000.00 has been credited from 1922 profits. In view of the heavy expenditure on the boats, which will considerably enhance their value, it has not been thought necessary to write down the value of them any further at the present time.

During the year, a donation of \$1,000.00 was made to the War Memorial Fund, and I trust this will meet with your approval.

I do not think there is anything further in regard to the accounts that calls for comment, and I therefore beg to propose that the report and accounts as presented be adopted and passed. When this has been seconded, I shall be pleased to answer to the best of my ability any questions that shareholders may desire to ask.

Mr. A. O. Lang, seconded and the report and accounts were adopted.

On the proposition of Mr. L. S. Greenhill, seconded by Mr. E. Sadick, Mr. D. G. M. Bernard was re-elected a director.

On the proposition of Mr. J. Hooper, seconded by Mr. Hyde, Mr. C. Bernard Brown was re-elected auditor.

## KILLED BY GOSSIP.

## STRANGE VILLAGE MYSTERY.

Gossip among the villagers was stated to have brought about a double tragedy in the little Cornish village of St. Teath, according to the story related at the inquest.

Mrs. Osborne, the widow of a sailor, and her sixteen-year-old daughter, were found in their locked cottage lying on the bed with their throats cut.

Both, it was stated, had been worried over certain local gossip which had led to a police visit to the house.

Medical evidence showed that the woman murdered the girl and then committed suicide, and a verdict to that effect was returned.

**For a Lame Back.** Why you have pains or lameness in the back (ache the back) with Chiropractic's Pain Balm twice a day, managing with the palm of the hand for five minutes at each application. This (cheap) a piece of plaster slightly with this liniment and find it on over the rest of pain. For sale by all Chemists and Storekeepers.

## REVENUE COLLECTIONS.

## IMPORTS AND EXPORTS IN 1922.

The report of the Superintendent of Imports and Exports for the year 1922 which is to be tabled at this afternoon's meeting of the Legislative Council states *inter alia*—

Staff.—Mr. N. L. Smith acted as Superintendent throughout the year. Revenue Officer J. G. Kynoch was dismissed on 16th August. Revenue Officer G. R. Bass resigned on 16th June. Messrs. M. A. Hancox and E. J. Herod were appointed to fill the vacancies. Five Chinese Revenue Officers were dismissed, two died and seven resigned. The conduct of the Chinese Revenue Officers is reported as good, and a large amount of hard work was performed especially in reference to the smuggling of cigarettes.

Liquors Consolidation Ordinance.—The net revenue collected under the Liquors Ordinance during 1922 was \$1,196,799.01 as compared with \$1,040,637.04 for 1921.

Tobacco Ordinance.—The net revenue collected under the Tobacco Ordinance was \$1,474,677.50 as compared with \$1,052,031.14 for 1921. Special measures were taken with good results to deal with very prevalent smuggling of cigarettes.

Opium Monopoly.—The revenue for 1922 was \$5,551,305.35 as compared with \$3,938,107.99 in 1921. The price of prepared opium remained unchanged during the year. The increase in revenue is a very fair measure of the amount of illicit opium consumed in the Colony in 1922 and is no doubt largely due to the stringent steps taken to suppress illicit opium divans, where the greater part of the smuggled opium is consumed.

Trade statistics.—The total trade (excluding Treasure) for 1922 amounted to \$122,191,827 as compared with \$135,834,936 for 1921. Of this amount imports were valued at \$61,213,363 (as against \$68,143,059 for 1921) and exports at \$60,978,464 (as against \$67,691,877 for 1921). Treasure imported during 1922 amounted to \$2,717,516 (including \$1,548,744 of Gold and \$2,055,752 of Silver). Treasure exported during 1922 amounted to \$14,164,806 (including \$3,974,775 of Gold and \$10,366,325 of Silver).

Seizures.—Apart from the unprecedented number of opium seizures, Revenue Officers in the course of their duties seized 786 gallons of Chinese Wine, 159 lbs. of Chinese Tobacco, 5634 lbs. of Foreign Tobacco, 11,650 cigars, 1,218,288 cigarettes, 217 arms of various kinds, 54,997 rounds of ammunition and 41 lottery tickets.

Revenue and Expenditure.—The net revenue collected by this Department was \$8,222,781.86 as compared with \$8,281,915.69 for 1921.

The actual expenditure by this Department for the year was \$631,733.97 as compared with \$39,977.93 as compared with 1921.

## ASLEEP ON DUTY.

## NEGLECTED INDIAN CONSUL STABLE PUNISHED.

For being asleep when on duty and losing his revolver and ammunition, Police Constable Hukam Singh, No. B189, of Yau Ma Tei district, was fined \$100 by Mr. J. R. Wood this morning. The lapse occurred on the morning of May 28 and his excuse was that he felt sick and sat down thereby falling asleep.

His Worship, addressing defendant, said that he had considered the case and had seen his record which extended over ten years and, on the whole, was a good record. With a view to setting an example to other policemen not to fall asleep on duty and as the loss of the revolver and ammunition was a serious offence, Inspector Lamigan had said that the arms were worth \$40—he imposed the fine as stated.

It has long been a subject of complaint that it is impossible to buy postage stamps in London, after the post offices close. It has now been announced that automatic machines for the sale of stamps will shortly be placed outside a number of post offices in London and the provinces.

The prospect of successful wireless broadcasting in Malaya strikes us as being remote, says the *Straits Echo*. Material for the popular education similar to that utilised at home is not available and other difficulties. Immediately occur to one. Moreover, it may be advisable to wait and see how an admittedly "imperfect" scheme in England develops before we begin to consider the possibilities in Malaya.

## SHIPPING.

## DANISH EAST ASIATIC COMPANY.

## REPORT FOR 1922.

The total revenues of the Danish East Asiatic Company for last year—including 4,174,462 kroner brought forward—amounted to 47,563,173kr., as compared with 45,638,657kr. in 1921. After the deduction of working expenses and costs of administration the net profit available for distribution amounts to 14,708,789kr. The sum of 3,653,552kr. is written off for depreciation, and a dividend of 12 per cent is declared, leaving 4,529,544kr. to be carried forward to new account.

The report states that out of the amount of 9,524,320kr., which had been reserved from the revenues of 1921 for the purpose of meeting taxation, the sum of 5,363,693kr. had been used, that is to say, 1,395,786kr. for the payment of taxes, 1,967,907kr. for extraordinary depreciations, and 2,000,000kr. for depreciation of the shares in the Landmandsbank which had been subscribed by the company. It was known that this financial establishment was in serious difficulties already in the course of 1921, and it was with a view to avert the consequences which would have ensued from the failure of the bank that the Danish East Asiatic Company agreed to subscribe for 20,000,000kr. of preference shares out of the total of 70,000,000 new capital required for the reconstruction of the bank.

In order not to make too large a call on its floating resources, the company paid 5,000,000kr. in cash, and obtained from the National Bank an advance of 15,000,000kr. as a security for which it deposited securities on which it had to pay an annual interest of 5 per cent. In addition to this a sum of 10,000,000kr., originally reserved for eventual losses, was transferred in the last balance sheet to a special account with a view to setting off a possible depreciation of the shares in the Landmandsbank subscribed for by the company.

As regards the maritime services of the company, the gross revenue, the report says, amounted to 33,985,819kr. The disproportion between the world tonnage—now much larger than the pre-war figure—and the very small quantities of merchandise offering for shipment had naturally caused a fall in freights, which, however, had not been followed by a corresponding reduction in working expenses, which for the last business year had amounted to 25,581,277kr., so that the net profits of navigation came to 5,404,547kr.

At the end of the year 1922 the company's fleet consisted of 22 ships, comprising 19 motorships, one steamer, two sailing ships with auxiliary motors, representing a total cargo-carrying capacity of 107,370 tons, and with an average age of five-years and four-months. The book value of the ships is 204kr. per ton.

The profits from commercial operations amounted to 1,878,020kr. They came, on the one hand, from the importation of merchandise, principally oil seeds, rice, skins, cotton, tea, maize, and tanning substances, and, on the other hand, from the profits on exported goods, particularly cement, machinery, beer, preserved goods, wood, paper, glassware, &c.

The profits of branches and agencies amounted to 3,247,628kr. The branch at Bangkok found its operations considerably impeded by the abnormal prices caused by the war. In this respect, however, the situation improved during the second half of the year. Similarly in the last six months of the business year there was a noteworthy increase in the shipments of tea to India, China, and Japan.

At the Singapore branch the number of transactions was relatively high, both as regards European merchandise and Eastern produce, especially copra and rubber. The price of the latter commodity, which was falling nearly all through the year, began to rise in November, and by the end of December had reached a level almost 100 per cent. higher than that of October.

With a view to extending the business of the Shanghai and Hankow agencies with China a new agency was created at Tientsin. The purchases of soy beans in Manchuria were assured, as in the past by the agency at Harbin and Vladivostok, while the Sourabaya agency continued to buy Japanese produce and sell European merchandise.

The New York branch has the special mission of extending in America the sale of Eastern produce, similarly to that of San Francisco, which, moreover, is of very great importance for navigation and the export of timber.

Finally, the shares acquired by the East Asiatic in various enterprises brought in a profit of 2,136,505kr. The principal of these enterprises are the cement factory at Norresundby, the Danish Condensed Milk Works, the East Asiatic Industrial and Plantations Company, the United Baltic Corporation, Ltd., and the Naksoy

Shipbuilding Yard, as to the situation of which very encouraging reports are given.

## GEARED DIESEL ENGINES.

## MAIDEN VOYAGE OF THE "MUNSTERLAND."

Reports from New York say that the highspeed oil engines, with reduction gearing, have proved a success on the Hamburg-American Line twin-screw steamer "Munsterland," which recently arrived at New York on her maiden voyage. The ship itself was built by Blohm and Voss, of Hamburg, and is a noteworthy addition to the Transatlantic freight fleet, and brought about 10,000 tons of cargo to New York, her passenger capacity being limited to about a dozen. She is 465 feet overall, 58 feet beam, with a draft of 25 feet, 6,308 gross tonnage, and 3,826 net.

The two main engines, of the four-stroke cycle type, were built by the Augsburg-Nürnberg firm, being originally intended for submarine use. Each engine has ten cylinders, 20½ inches diameter, and a stroke of 20½ inches. The number of revolutions, which was to be 390 for submarine propulsion, was reduced to 230, which gives a piston speed of 13.3 feet per second.

The mean indicated pressure has similarly been reduced from 117.8 pounds per square inch to 102.2 pounds per square inch. Each engine develops 1,650 shaft horse power, giving the ship a speed of 12 knots, the reduction gears bringing the propeller revolutions down to 85 per minute.

ELECTRIC AUXILIARIES.—The operations of the ship, steering gear, cargo winches, &c., are performed with electric power, derived from two three-cylinder oil engines, developing 180-horse power, coupled to 95-kilowatt dynamos, their voltage being 220. A hot-bulb motor, driving an 11-kilowatt dynamo, gives power for the lighting system, and the whole ship is kept warm in cold weather by a hot-air circulating system, utilising the heat of the exhaust gases.

The ship on her trial came up to expectations in all respects. Operation of the installation was perfect and the reduction gears ran without any noise whatever. The fuel consumption was measured at three pounds per indicated horse power hour, and she carries a fuel supply of 1,400 tons.

The "Munsterland" is intended for the Hamburg-New Orleans route, and is one of a trio of sister ships scheduled for that run, the third of which is being built, and the first, the "Haveland," being already in commission.

## DOUBLE-ACTING DIESEL ENGINES.

Although their name has not been mentioned in connection with the new double-acting Diesel engine which is being constructed by Messrs. Burmeister and Wain, Copenhagen, Messrs. Harland and Wolff, Ltd., as licensees for the British Empire for the Burmeister and Wain engine, have been associated for the last two years in the development of the improved type, and the success which has been achieved is due to the combined efforts of the two firms.

As a matter of fact, it is expected that oil engines of the double-acting type will, before long, be under construction at Messrs. Harland and Wolff's works, and that they will be of a power which will revolutionise marine engineering. Full details of the new engine are not yet available, but the opinion is expressed by engineers, who are well qualified to judge, that the advance which it represents, as compared with existing types, will be as epoch making as that which took place when the internal combustion oil engine first made its appearance in ships.

While the new type is suitable where large powers are essential, the existing type, which has been so successfully developed by Messrs. Harland and Wolff, will still be adopted for smaller vessels in which high powers are not required. Vessels fitted with Diesel engines made by Harland and Wolff are to be found in the fleets of the Glen Line, the Pacific Steam Navigation Company, the "Bibby" Line, and many other companies, and the experience gained in this way by the well-known British firm has been of the greatest value in the further developments which have taken place.

109 B. & W. MOTORSHIPS.—To date, it may be added, 109 ships, representing a total tonnage of 635,751, have been fitted with Diesel engines of the Burmeister and Wain type. No other Diesel engine has found favour with shipowners to anything like the same extent.

The Duke of Leinster was summoned at Marlborough-street for having unlawfully obtained credit to the extent of £1,000 without disclosing the fact that he was an undischarged bankrupt. Having heard the evidence, Mr. J. Byrnes dismissed the summons.

With Premier Nikolai Lenin critically ill, the Russian political situation is puzzling. One report has it that Leon Trotsky who is now Minister of War, will assume a military dictatorship of the country, while another declares that M. Leo Kameneff, Lenin's right-hand man and President of the Council of Ministers, has already been selected to take over the government.

When the liner "Leviathan", is completely reconditioned she will fly the flag of the United States Lines and will be the only vessel which will present a nightly theatrical show while at sea. More than 2,500 men are at work now on the vessel to have her ready in time for her maiden trip about June 1. Hundreds of new conveniences are being installed. There will be a radio telephone in each of the first cabins, which will also have open plumbing in their equipment. A complete new gallery and pantry is being installed, as well as a steam-heating system. The liner is being converted from a coal to an oil burner, which will consume 1,000 tons of fuel oil daily to turn up a speed of 25 knots. The reconditioning will cost \$10,000,000, and when completed the ship will be worth \$30,000,000. The 2,600 men at work are shown leaving for midday lunch. It takes five minutes to clear the decks. A general view of the vessel's decks also shows the 150-ton crane for carry supplies on board.

Miss Gloria Gould, daughter of the late Mr. George J. Gould and granddaughter of Jay Gould, has become engaged to Henry A. Bishop Jr. Miss Gould is one of the most beautiful young women in America and a talented dancer.

Christening of George Henry Hubert, baby son of Princess Mary and Viscount Lascelles, which took place at Goldsborough Hall, in Yorkshire. The royal group posed immediately after the event. Sitting, Lady Harewood and Queen Mary, holding the infant. Standing, King George, Princess Mary and Viscount Lascelles.

When Ben Funk, recently elected Captain of the 1924 Boxing Team at Yale, knocked out C. E. Howard, of Queen's College, Canada, in the international collegiate boxing championships, Dave Fitzgerald, veteran referee, declared Funk was "the greatest amateur boxer in America." Funk boxes at 158 pounds.

The Hon. Reginald McKenna, former Chancellor of the British Exchequer and one of England's foremost bankers and financial authorities has been seriously ill with typhoid fever, in London.

Howard W. Lee, has promised to be a good husband to any girl who becomes his bride, providing she brings along \$5,000, which, he says, he needs for a worthy cause. He doesn't care if she is not even pretty, and declares he will guarantee his love, to be Al.

St. Mary's College, at Oakland, is a very small institution of learning, but has turned out more real high-class baseball players for big leagues than any other college. Brother Agnon, Dean of Athletics, is responsible for the splendid showing of the little college in baseball. He has been there for 36 years and is considered a national authority on baseball.

**BRINGING UP FATHER**

MAGGIE: WHY DID YOU DRAG ME TO THIS OLD FOLK'S HOME?

SHUT UP! THE DE PEYSTERS ARE VERY SWELL AND YOU'RE MIGHTY LUCKY TO BE INVITED FOR THREE DAYS AT THEIR HOME.

SAY, SONNY! WHAT'S THE QUICKEST WAY TO THE RAILROAD STATION?

RUN STRAIGHT DOWN THIS ROAD FOR A MILE.

THERE'S THE JUST TRAIN TO TOWN.

HERE WE ARE AT LAST.

LET'S WALK TO MRS. DE PEYSTER'S HOUSE.
